Dear Rene,

I just finally had a chance to look into your Website. I read some poems and liked them a lot. I looked at Photos and was sad when they finished. I looked at Artwork and was fascinated, intrigued and full of wonder at the range and power of them. It's a lovely Website and a very nice photo of you. Really good - liked your book cover very much too. I thought some of the photos looked like they should be used for post cards. Really excellent.

Much love to you and Sophie. Anita
